画廊介绍

A. 贾因内画廊，位于纽约画廊大厦，成立于1997年10月2日。在1997年之前，画廊前身是画廊，作为纽约一家著名的画廊成立于1980年，坐落于纽约曼哈顿设计大厦，在最初几年中，画廊与许多收藏家、设计者和公众客户建立的良好合作关系。20世纪90年代中期，画廊的管理层决定将注意力集中到亚洲和欧洲艺术上，超越了其代理的传统美国艺术家。随后，画廊加入了一些日本机构的力量，在纽约市中心显著地段设立了新的展示空间。

长期以来，画廊一直是青年艺术家的良好归宿与选择。它使得艺术更加公开化，并有许多作品在刊物上发布在艺术博览会中得以展示。

A. 贾因内画廊是一个一直致力于拓展推广新兴艺术家的艺术机构。画廊收藏了来自亚洲、澳洲、欧洲、北美和南美的艺术家的当代艺术作品。A. 贾因内画廊为代理的许多艺术家提供了在比利时、洛杉矶、墨尔本、纽约、瑞士、东京和横滨等国际艺术博览会平台上展示的机会。

Gallery Information

A. Jain Marunouchi Gallery, located in the New York Gallery Building, was incorporated on October 2, 1997. Prior to 1997, the gallery had its roots as Jain Gallery, a well-known New York City gallery that was founded in 1980. Jain Gallery was initially located in New York's prominent and industry-based Decoration & Design building, the epicenter of the city's décor and design world. During its initial years, the gallery established many formidable connections with collectors, decorators, and public clients who continue to support the gallery to this day. By the mid-1990s, Jain Gallery's management decided to focus heavily on the representation of Asian and European art, expanding beyond its traditional line of American artists. The gallery joined forces with a number of Japanese institutions and established itself in a prominent SoHo location at the birth of the downtown art movement in New York City.

For a number of years the gallery flourished as a destination for established and emerging artists alike. It helped make art more accessible to the public and promoted its works through various publications and art fairs.

A. Jain Marunouchi Gallery is an institution that has been committed to exhibiting and representing fine artworks from prominent and emerging artists alike. The gallery has come to offer an extensive collection of contemporary artwork with artists from Asia, Australia, Europe, North America and South America. A. Jain Marunouchi Gallery has represented many fine artists at the international art fairs in Belgium, Los Angeles, Melbourne, New York, Switzerland, Tokyo and Yokohama.

Artists
